

# Grab-N-Go

## Nature Lessons Kit

### *Seed Balls*

#### **Procedure:**

- Mix up the seeds, clay, and compost with half a cup of water until it has a cookie dough-like texture.
- Pinch off a section from the mixture and roll it into the shape and size of a golf ball.
- Continue creating seed balls in this way until all the mixture has been used up.
- Distribute seed balls in an approved public spot to distribute wildflower seeds or even in your own backyard.
- Wash your hands.
- Use the wildflower booklet to identify your flowers when they bloom in the spring.
